Consignment Information

Consignments are accepted for auction at any time for future sales. Usually more than 50 consignors are represented in each sale. Commissions are charged on the total amount consignment realized.

Commission Rates: **2½ to 10% depending on total value of the consignment.** This commission covers all costs including catalog preparation, listing and description of the various lots, photography (of particularly important pieces), and other normal operations. There will be a 10% buyers charge on this sale.

On extreme rarities and large collections, fees are negotiable.

We would be pleased to discuss your potential consignment in confidence with you personally if you have any questions or concerns.

While in our hands, consignments material is insured for its full consigned value or at the Coin Dealers Newsletter Bid.

Material should be shipped to us by registered mail. An acknowledgement of receipt of your shipment will be sent along with a confirmed auction contract. Additionally, material can be hand delivered personally by the consignor to our offices, sent by courier or hand delivered to one of our convention agents.

Reserve Bids: If executed, our minimum fee is **10%** per lot of the Reserve bid. This applies only if the reserve bids are submitted with the consignment. The minimum reserve bid accepted \$250. per lot. If we feel a lot will not sell at or above a reserve, we will reject this lot and return it to the consignor at no charge. In the case of reserves not submitted with consignments, they are treated as bids and the full commission rate is charged to the consignor if the reserve is the winning bid.

We do reserve the right to recatalog, regrade and estimate lots according to our established standards.

We are mainly interested in consignments of auctionable material, both in terms of rarity and grade, since they realize the best return due to demand and popularity. We prefer listing lots with minimum values in excess of \$200 each without bulk lotting. Items of lesser value are normally grouped together. We are one of the few auction houses that will accept total collections for auctions. The minimum consignment value should be \$1000.

At least 2500 copies of each of our catalogs will be mailed to subscribers and active clients. Our total mailing list is now in excess of 5,000 names of actual auction bidders, individuals, firms and institutions who at one time or another request a catalog.

Settlement checks are issued 45 days after the sale on all lots with a completed sale.

Terms and Conditions of Sale

BUYER'S CHARGE

A buyer's charge equal to 10% of the final bid realized will be added to each lot. **THIS BUYER'S CHARGE WILL BE ADDED TO ALL INVOICES.**

BIDDING AT AUCTION

THE HIGHEST BIDDER wins each lot. **SALES TO THE FLOOR ARE FINAL.** Bidding will begin slightly above the second highest mail bid. If the auctioneer recognizes no other bids from the floor, the highest mail bidder is awarded the lot at the opening bid. If bidding proceeds from the floor, McINTIRE NUMISMATIC AUCTIONS will act as agent for the mail bidder until he is successful or the next bid is higher than the maximum bid set by the mail bidder. If there are identical mail bids, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid and a floor bidder must bid higher than the highest mail bid to be awarded any lot. In the event of any dispute involving a bid, the decision of the auctioneer is final. No "Unlimited" or "Buy" bids will be executed. McINTIRE NUMISMATIC AUCTIONS reserves the right to reject any bid that we believe has not been submitted in good faith. We also reserve the right to withdraw any lot at any time.

BIDDING BY MAIL

Mail bidders should read "For Successful Mail Bidding" on page III. Bids will be entered only in whole dollar amounts. **ALL BID SHEETS MUST BE SIGNED**, including company bids by a principal. Check your bid sheet carefully as we cannot be responsible for errors.

Bidders unknown to us or who have not established credit with McINTIRE NUMISMATIC AUCTIONS should furnish a deposit of 25% of their total bids. The deposit will be applied to successful bids or promptly refunded after the sale.

Postage, insurance and sales tax, if required by law to be collected, will be added to the invoice on any lots that are shipped to successful bidders. Overseas buyers must furnish their own insurance during shipment. (See Return Privileges section for additional, related information).

No bids can be accepted from persons under 18 years of age.

MONEY MATTERS

All sales are strictly for CASH with payment in U.S. funds due immediately upon receipt of invoice. Late remittance will be subject to an interest charge assessed to local maximum current allowable rates.

If bidders wish to establish credit with McINTIRE NUMISMATIC AUCTIONS, arrangements must be made prior to the sale. We reserve the right to require payment in full by all bidders, prior to the delivery of lots, even if satisfactory references or credit have been established.

Sales tax, as required by law to be collected, is the responsibility of successful bidders unless a valid resale certificate is presented or is on file with our company. Postage and insurance will be added to lots shipped.

Title to any lot remains with consignor. McINTIRE NUMISMATIC AUCTIONS, INC. acts as agents for the consignor, until the lot is paid for in full. However, it is the responsibility of the buyer to provide adequate insurance coverage once any lot is in his possession. Risk of loss is with the buyer. By bidding in the sale, the bidder agrees to permit McIntire to file any financing statement permitted under the Uniform Commercial Code without debtor's signature and to offset any accounts due, whether now or in the future, against funds or collateral in their possession.

Return Privileges

AUCTION SALES ARE NOT APPROVAL SALES.

FLOOR BIDDERS OR MAIL BIDDERS who have examined the lot, including those acting as agents for others **MAY NOT RETURN LOTS FOR ANY REASON. All sales to the floor are final.**

MAIL BIDDERS may return lots only for reasons of authenticity or errors in the catalog. In order to preserve your return privilege, you as a mail bidder must follow the **TERMS OF SALE**. Invoices are due upon receipt and must be paid promptly so that you may receive your lots and still have time to comply with the deadline for returns. In the unlikely event you return a lot, McIntire Numismatic Auctions must be notified of your intent within three days of your receipt of the lot. Any lot that is to be returned must be received in our offices within 30 days from the date of sale. Therefore, **LATE REMITTANCE WILL NEGATE YOUR RETURN PRIVILEGE.** If a Lot is to be returned it must be housed in its original, completely intact, sealed holder. **NO RETURNS OR CLAIMS OF ANY KIND WILL BE CONSIDERED AFTER SETTLEMENT IS MADE WITH THE CONSIGNOR.** Since McIntire Numismatic Auctions, Inc. acts only as agents for various consignors, any dispute that arises after the settlement date is strictly between the bidder and consignor, without involvement or responsibility of McIntire Numismatic Auctions, Inc. and/or the catalogs. In any event, our ultimate liability is the price paid. Service fees (postage & insurance) are not refundable.

Questions regarding the minting of a coin as a proof or business strike relate to the method of manufacture and not to authenticity.

Bidding in this sale constitutes acceptance by the bidder of all the foregoing terms and conditions of sale.

MAIL BIDDING INSTRUCTIONS

Bidding by mail is an enjoyable and interesting experience. It can also be very rewarding if you are a successful bidder. We have been long time mail bidders and over the years have developed some guidelines that may be used to both the experienced bidder and "rookie" alike.

1. **READ THE TERMS OF SALE** in front of the catalog. These terms spell out the legal obligation you incur when you submit a bid sheet.
2. **FOLLOW THE TERMS OF SALE.** If you have not established credit, send your references and/or a 25% deposit.
3. **MAIL YOUR BID SHEET EARLY.** That allows us time to check your references and to insure that your bids will be entered. We recommend that you mail your bid sheet at least ten days prior to this date as mail delivery is sometimes uncertain.
4. **DO NOT BID MORE FOR A LOT THAN YOU WANT TO PAY** because you are legally bound to pay for the lots awarded to you. A 10% buyer's charge will be added to the final bid for each lot.
5. **REMEMBER AUCTION INVOICES ARE DUE UPON RECEIPT.** Be prepared to pay in full for all of your successful bids.

Now that we've stressed the important things in the eyes of McIntire Numismatic Auctions, let us offer some other suggestions to help you prepare your bid.

Read through the catalog with a sheet of paper at hand, listing and making notes on those lots of interest to you. You then can use this work sheet to research the coins, determine their market price, and decide upon your bid.

Speaking of market price, please keep in mind when you place your bids. It usually takes a realistic bid within current market ranges to be successful. There is no harm in bargain hunting but the chance of winning coins is greatly reduced. If you want or need a particular lot, recognize current market values and bid accordingly.

If you have questions about estimated values we are as near as the telephone. Please call us. Now that you have determined your bids, complete the information sections of the MAIL BID SHEET. Be certain to include your phone numbers. We can then call you if there is any questions about a bid.

LIST YOUR REFERENCES.

Enter your bids. Keeping them in numerical order helps us.

Sign your bid sheet. Without your signature we cannot enter your bids.

Check your bid sheet carefully. We are not responsible for your errors.

If you wish to limit your total expenditure, please write MAXIMUM EXPENDITURE \$_____ and the amount at the top of your bid sheet. You can then submit bids for amounts up to four times the amount of the maximum expenditure. This is a personal service and a McIntire customer representative will personally attend to your bid sheet by bidding from the auction floor, buying lots for your account until your authorized expenditure is reached. While we will do our best efforts in your behalf, due to the speed of the auction sale and the sometimes crowded conditions, we cannot be responsible for failure to execute such a bid properly. Due to the bookkeeping involved, this service is offered only to bidders with maximum expenditures of \$2,000 or more. MAXIMUM EXPENDITURE and "ONE LOT ONLY" bidding cannot be combined.

Up to five lots may be grouped with brackets for a "ONE LOT ONLY" purchase, if you wish to purchase only one example of a coin of which several examples appear in the sale. Such lots should be bracketed with the notation "ONE LOT ONLY" appearing.

Lots may be inspected by mail prior to the auction. Please write or call for further information.

IMPORTANT NOTICE: CREDIT CARDS WILL NOT BE ACCEPTED FOR AUCTION DEPOSITS OR PAYMENTS.

The Prices Realized List will be published 60 days after the auction.

Grading

The U.S. coins in this sale are all graded in accordance with the standards established in the *American Numismatic Association Grading Guide*. The quantitative, numerical grade is used in conjunction with the traditional letter grade in order to best describe the condition of the coin.

Poor	= 1	Very Fine	= 20, 25, 30, 35
Fair	= 2	Extremely Fine	= 40 & 45
About Good	= 3	Almost Uncirculated	= 50 & 55
Good	= 4 & 6	Mint State	= 60, 63, 64, 65, 67 & 70
Very Good	= 8 & 10	Proof	= 60, 63, 64, 65, 67 & 70
Fine	= 12 & 15		

Grading, however, is not a science. The grades herein represent our best, experienced opinion and it is possible that two people will not always grade the same item alike. Your examination should be the basis upon which you ultimately determine an item's value. After all, in any sale, any item's value is solely determined by its price.

Coins graded by ANACS are catalogued at these assigned grades.

This catalog McIntire Numismatic Auctions will use the MS-64 designation for some dollars and other U.S. Coins. While we subscribe to and continue to use the *Official ANA Grading Standards for United States Coins* as the basis for all of our grading, we have chosen to use MS-64 primarily for the benefit of the mail bidder who has not had the opportunity to personally view the lots prior to the sale.

As we all know, and accept, MS-64 coins are MS-63 by the ANA standards. However, the market-place places a premium over and above MS-63 prices for those "borderline" or "almost full MS-65" coins. Without the MS-64 designation we would be faced with stretching the grade to full MS-65 and having the coin sell somewhere between the MS-63 and MS-65 price. While that in between price is probably the market, it makes auction records and the prices realized appear distorted. Similarly, if we reduced the grade on these "almost MS-65" pieces to MS-63, the mail bidder, whose business we highly value, is at a definite disadvantage with those who are able to inspect the lots. For these reasons, we at McIntire Numismatic Auctions have chosen to use the MS-64 designation.

GRADING OF U.S. CURRENCY

FAIR	— Discernible as to type.
G	— Heavy soiling. May have tears. Worn design.
VG	— Exhibits much wear, but completely intact.
F	— Well circulated, but no tears. Usually has three or more folds. May be heavily soiled in places.
VF	— Retains much original brightness but obvious breaks in ink at folds. Moderate to light soiling.
EF	— Obvious signs of circulation, obvious folds but not ink breaks. Moderate to light soiling.
AU	— Trace of folds, obvious surface wrinkles. Choice examples may border on CU and display circulation crease when viewed by reflected light or corner folds.
CU NOTE	— Uncirculated, but may have light fading, natural surface wrinkles, hint of teller's counting crease, or pinhole. Choice or Gem depending upon centering, crispness and color.

All photographs in this catalog are of the actual item to be sold.

The official prices realized list that accompanies our auction catalogs is reserved for bidders and consignors only. We are happy to mail others upon written request. Enclose \$1.00 plus a S.A.S.E. for prices realized.

Consignment Information

Consignments are accepted for auction at any time for future sales. Usually more than 50 consignors are represented in each sale. Commissions are charged on the total amount consignment realized.

Commission Rates: **2½ to 10% depending on total value of the consignment.** This commission covers all costs including catalog preparation, listing and description of the various lots, photography (of particularly important pieces), and other normal operations. There will be a 10% buyers charge on this sale.

On extreme rarities and large collections, fees are negotiable.

We would be pleased to discuss your potential consignment in confidence with you personally if you have any questions or concerns.

While in our hands, consignments material is insured for its full consigned value or at the Coin Dealers Newsletter Bid.

Material should be shipped to us by registered mail. An acknowledgement of receipt of your shipment will be sent along with a confirmed auction contract. Additionally, material can be hand delivered personally by the consignor to our offices, sent by courier or hand delivered to one of our convention agents.

Reserve Bids: If executed, our minimum fee is **10%** per lot of the Reserve bid. This applies only if the reserve bids are submitted with the consignment. The minimum reserve bid accepted \$250. per lot. If we feel a lot will not sell at or above a reserve, we will reject this lot and return it to the consignor at no charge. In the case of reserves not submitted with consignments, they are treated as bids and the full commission rate is charged to the consignor if the reserve is the winning bid.

We do reserve the right to recatalog, regrade and estimate lots according to our established standards.

We are mainly interested in consignments of auctionable material, both in terms of rarity and grade, since they realize the best return due to demand and popularity. We prefer listing lots with minimum values in excess of \$200 each without bulk lotting. Items of lesser value are normally grouped together. We are one of the few auction houses that will accept total collections for auctions. The minimum consignment value should be \$1000.

At least 2500 copies of each of our catalogs will be mailed to subscribers and active clients. Our total mailing list is now in excess of 5,000 names of actual auction bidders, individuals, firms and institutions who at one time or another request a catalog.

Settlement checks are issued 45 days after the sale on all lots with a completed sale.

First Session

FRIDAY, JULY 13, 5:00 p.m. (Lots 1-895)

A 10% Buyers Charge In Effect

GOLD DOLLARS

LIBERTY HEAD TYPE I 1849-1854

1. 1851 MS-60. Fully struck and lustrous. A few tiny ticks on the surfaces.

INDIAN HEAD TYPE II 1855-1856

2. 1855 Type 2 VF-35. One MM hole at 12:00.

INDIAN HEAD TYPE III 1856-1889

3. 1856 Type 3 VF-35. Planchet flaw about 11:00 on the reverse.
4. 1857 VF-20. Mounting removed and slightly bent planchet.
5. 1857 \$1 Gold VF, holed; (3) California gold tokens: 1853, 1861, 1865. All AU. (TOTAL 4 PIECES)

QUARTER EAGLES (\$2½ GOLD)

CLASSIC HEAD 1834-1839

6. 1834 No Motto Plain 4 in Date AU-55 or better. Quite sharply struck up with Prooflike fields. Rich greenish-gold luster with some brush marks in the reverse field above the eagles wings. Some light hairlines on the obverse. (PHOTO)

LIBERTY HEAD 1840-1907

7. 1845-O EF-40 or better. Much original mint luster still remaining. Only 4,000 pieces minted, the lowest recorded figure for any New Orleans mint quarter eagle. A classic due to its low mintage. Only 53 specimens have crossed the auction block since 1941. The B&R AU-50 specimen realized \$2640 in 1982. We estimate this one in EF-40 to bring \$1500 to \$2000. (PHOTO)
8. 1845-D VF-35. Some reasonable claim to EF. A rim tick at 2:00 obverse and a few unnoticeable scratches are mentioned for accuracy. Some remaining luster among

the stars. Extremely scarce, if not rare, in the higher grades. Just 19,460 minted and in Aker's opinion, rarer than the 1843-D or 1844-D.

9. 1849-C Fine-12. One of the rarest Charlotte mint quarter eagles. This piece is well worn and displays numerous light contact marks commensurate with the grade. The rim to the obverse left and corresponding reverse is slightly flattened as though the coin were straightened. Still, a decent example of this elusive date. Original mintage: 10,200.

10. 1852-C VF-35. Very scarce with just 9,772 minted. Well struck for the date with the often seen high wire obverse rim. Light orange-gold color in the protected areas.

11. 1896 Proof-50. Deeply mirrored surfaces. Wide flat borders. A few to many light surface abrasions to not be called impaired. Still, a flashy, attractive and rare coin. Just 132 Proof coins.

12. 1899 AU-55. Polished.

INDIAN HEAD 1908-1929

13. 1911 EF-45. Nice.

14. 1914-D MS-60. Frosty luster. Quite attractive.

15. 1915 MS-65. Fully struck and frosty. Gorgeous, rose gold. Pristine surfaces Indian Head gold coins, because of the incuse design, are undoubtedly the most difficult to locate in gem condition of all the modern series. EX: Our GHMS 1983 Lot #992. (PHOTO).

16. 1925-D AU-50. Virtually mint state.

17. 1928 AU-55.

THREE-DOLLAR GOLD 1854-1889

18. 1854 AG-3. Well worn but undamaged.

19. 1874 EF-40. Cleaned. ANACS certified only.

HALF EAGLE (\$5.00)

CLASSIC HEAD 1834-1838

20. 1836 F-12. Edge nicks.

CORONET TYPE NO MOTTO 1839-1866

21. 1861-C Fine-12. Burnished. Evenly worn, with just one small rim bump at 12:00 reverse. The lowest mint-age Charlotte half eagle with just 6,879 struck. Also, the last year of issue.

CORONET TYPE WITH MOTTO 1866-1908

22. 1881 1 over 0 AU-50. Excellent remaining luster. The original 1880 punch was too low and traces of all four numerals are present beneath the 1881. The 0 is particularly noticeable and is visible to the naked eye. One of the most interested over dates. Rare enough to have gone undiscovered until the early 1970's. In researching recent auction records, sales lists and consulting knowledgeable dealers, we feel that the estimate of 65 known pieces is realistic. Authenticated by INS. EX: 1984 Money Sale: 3064 at \$1900. (PHOTO)

23. 1897 MS-63 or better. Pristine satin surfaces with only a few stacking marks from a truly gem half eagle. Worthy of a premium bid. (PHOTO)

24. 1906-D MS-60 or better. The first Denver half eagle. A few scattered marks, but none serious. (PHOTO)

INDIAN HEAD 1908-1929

25. 1909-D EF-45. Popular

26. 1911 MS-64 or better. Satin gold luster. Fully struck with a rounded unabraded cheek. A few scattered surface ticks. Still a nice specimen. (PHOTO)

27. 1911 AU-50. Nice frosted face and other recessed areas

A 10% Buyers Charge In Effect

Half Eagles (Cont'd.)

28. 1913 AU-55. Nearly mint state. One reverse scuff into the eagle's neck.

EAGLES (\$10.00)

CORONET TYPE WITH MOTTO 1866-1907

29. 1901 AU-50. Half of the mint luster remains. A small rim bump.
30. 1906-D MS-63. Lustrous surfaces. Just a few light and minor surface ticks as is expected on this larger coins. The first eagle struck at the Denver mint.

INDIAN HEAD 1908-1933

31. 1909 VF-30. Nice, no problems.
32. 1910-S VF-20. Worn but undamaged.
33. 1926 AU-55. Excellent luster. A few scattered marks and just a trace of friction.
34. 1932 MS-64. Frosty rose-gold satiny luster. Very clean surfaces with minor contact mark on the chin and base of neck. Extremely well struck. (PHOTO)

DOUBLE EAGLES (\$20.00)

WITH MOTTO TYPE III 1877-1907

35. 1903 MS-63/65. Nice strike and luster. The reverse is superb and virtually mark free.
36. 1904 MS-63. Excellent luster. Minimal marks. A nice double eagle.
37. 1906-D MS-60. Satiny luster. Fewer than expected marks. The first Denver mint issue. One reverse rim nick.

38. 1907-D MS-63. Exceptionally free of heavy marks. Lovely, satiny luster. One of just two Denver issued \$20 Liberties.

SAINT GAUDENS NO MOTTO 1907-1908

39. 1908 No Motto MS-63 or better. Rich luster. A nice example of this two year type coins. (PHOTO)

WITH MOTTO 1908-1933

40. 1924 MS-63. Frosty and minimally marked.
41. 1926 MS-65. Blazing luster. A tick or two but overall, a very choice St. Gauden's double eagle.
42. 1927 MS-65. Satiny, clean surfaces. Lovely color.
43. 1927 MS-60 or better. Rose color. Frosted devices only to be broken at the high points from stacking.
44. 1927-S MS-60. Very lustrous fields. Only a slight break of luster on the knee and breast of Ms. Liberty. Although 3,107,000 were minted, only relatively few 1927-S double eagles exist today. This issue has always been elusive and it is estimated that the population does not exceed 75 pieces, with the latest examples realizing an average of \$8,000 each. Less than 10 pieces have crossed the auction block in the past four years. A great opportunity for the specialist of the investor. (PHOTO)
45. 1928 MS-60. A few marks but none serious.

COMMEMORATIVE GOLD

46. 1917 McKinley AU-55. Too many hairlines on the obverse to call mint state. Flashy luster.
47. 1926 Sesquicentennial \$2.50 MS-65. Lovely original satiny gold. Superb surfaces and color. Purchased from the Great Midwestern Collection we sold earlier this year.

48. 1926 Susquicentennial \$2.50 MS-63 or better. Fully struck and with full mint brilliance. Only one tiny obverse tick from virtual perfection. The consignor reports that this was one of the finest pieces from a coin hoard that surfaces in the 1980's. (PHOTO)

CALIFORNIA GOLD

49. 1854, D-416, Type 7, L-7A. One Dollar Gold EF-45. 29 known. Rarity-5. Doering California Fractional Gold 2nd Edition lists this specimen at \$3800 in Extremely Fine which is too high. (PHOTO) (EST. \$500 up)
50. 1854, D-416, L-7A, \$1 Octagon. Liberty Head, 13 stars-type 7 EF. A tiny hole at the 8th star. Very scarce. Listed as a R-5. (EST. \$200 up)
51. 1870 Half Dollar Octagonal EF. L-20A, D-237, Liberty Head. Coin Rarity-6, Type R-6. (EST. \$250 up)
52. 1873 Half Dollar Round AU-50. L-47A, D-305, Indian Head. Rarity-8. (EST. \$350 up)

U.S. PATTERNS

53. J-204, 1858 Cent Proof-63. The "turkey" cent with small letters, oak wreath reverse with broad ornamented shield. Copper-nickel P.E. (R-5). Light tint of rose toning on golden luster. (EST. \$800 up) (PHOTO)
54. J-208, 1858 Cent Proof-63. Indian cent. Adopted design of the 1859 cent. Laurel wreath reverse. Copper-nickel P.E. thick planchet. Low date; leaves in cluster of five. (R-4). (EST. \$800 up) (PHOTO)
55. J-212, 1858 Cent Proof-65. Indian cent. Reverse ONE CENT in an oak wreath with a broad ornament shield. Copper-nickel P.E. thick planchet. A pristine example. (EST. \$1000 up) (PHOTO)

INS photo certificate and a copy of a definitive letter by Charles Hoskins, first director of ANACS and director of the International Numismatic Society Authentication Bureau, accompanies this lot. In his letter Mr. Hoskins outlines the history of the blanks. Explains the tests conducted and concludes "... thus, we are fully satisfied that these upset blanks are of the alloy and composition MAGNIMAT produced for coinage by the VDM Company of West Germany."

Magnimat is a composite of sandwich metal but does not look like a sandwiched material. Rather the patented process provides the look of solid nickel and has several unique and counterfeit resistant magnetic properties. It was proposed as a desirable coinage material for the smaller size dollar in 1978. Our review of hearing transcripts confirms that a few sample Magnimat blanks were distributed to the Subcommittee on Historic Preservation and Coinage of the U.S. House of Representatives on May 31, 1978.

The small sample offered here entered the numismatic market when 18 pieces were purchased in early 1983 by Alexandria, VA coin dealer Joe Gallo, from former subcommittee staff director, Jackson O'Neill Lamb. Congress eventually authorized the traditional cupro-nickel composite for the Susan B. Anthony dollar. These Magnimat sample blanks, like Feuchtwanger's German silver, paper, plastic and aluminum are just the latest examples of proposed but not adopted material for the coins of the realm. Having not been prepared by the U.S. mint these are legal to own and not confiscable by the U.S. Secret Service. These blanks are definitely scarce with just the eighteen pieces accounted for and even more desirable in that they are accompanied by the INS authentication papers.

975. 1967 Krugerrand Proof, Y-104. Proof Krugerrands are made from highly polished sandblasted dies — and are, therefore shiny and mirror-like with more clearly defined designs than uncirculated Rands. In July, 1967, the first Krugerrands — containing exactly 1 ounce of pure gold — were struck at the South African Mint. These were Proof coins (sold by the South African Mint) and Prooflike coins (sold by the Cham-

ber of Mines of South Africa) — and were the only Krugerrands minted and sold for the next three years. The 10,000 Proof coins produced had plain (unfrosted) designs. In 1967 40,000 Prooflike coins had one or both designs slightly frosted. Proof Krugerrands are rare. Source: South African Mint. HALF DOLLARS

FLOWING HAIR, SMALL EAGLE 1794-1795

1072. 1794 F-15/VF-20. Light gray with pastel undertones. A pin head mark in front of Ms. Liberty's nose and a reverse rim nick is the only distraction. Otherwise a clean, balanced coin which shows nice even wear. Scarce, popular and always in demand.

DRAPED BUST, HERALDIC EAGLE 1801-1807

1073. 1805 VF-25 Untoned. Natural strong surfaces. Good hair detail and ever so soft in motto on the reverse.
1074. 1806 Good 6 Date. Liberty and stars are full and strong, center detail is weak, and 1809 Good 6 Full date, stars and legend. (TOTAL 2 PIECES)

CAPPED BUST, LETTERED EDGE 1807-1836

1075. 1810 EF-45. Sharp and original
1076. 1820/19 EF-40. Original and lightly toned.
1077. 1825 MS-65. Mostly brilliant with satiny white luster highlighted by light golden toning clinging to the protected areas. Boldly struck at the centers, less so in the stars. Slight softness in the reverse motto. A lovely, choice example of a Capped bust half dollar. (PHOTO)
1078. 1827 Square 2 EF-40. Original.
1079. 1829 AU-50. Some luster with light gray to gold toning.
1080. 1830 EF-45. Original dark steel blue toning with a golden luster around the devices.
1081. 1831 AU-55 Prooflike. Exceptional, deeply mirrored, highly reflective fields. Struck from slightly mis-aligned dies producing a higher than expected obverse rim. Scattered light surface marks. Traces of light toning. Exceptionally flashy. (PHOTO)
1082. 1834 AU-58. A lightly hairlined slider.
1083. 1834 EF-45. Brilliant with some luster.

CAPPED BUST, REEDED EDGE, "50 CENTS" 1836-1837

1084. 1836 AU-50. Light gray toning over much luster. Lovely.
1085. 1836 EF-45. Original gray toning.
1086. 1837 MS-64 or better. Nearly superb, fully struck up stars, hair and eagle feathers. Brilliant luster with sea-green and rose peripheral toning. Very clean fields. Just a few small contact marks by the first star keeps it from being an amazing coin. (PHOTO)
1087. 1837 Reeded edge AU-50 Original light gold tint.
1088. 1837 EF-45. Somewhat Prooflike surfaces but has been lightly brushed.

1090. 1837 Reeded Edge EF-40. Original gray toning.

CAPPED BUST, REEDED EDGE "HALF DOLLAR" 1838-1839

1091. 1838 EF-40. Some remaining luster.

LIBERTY SEATED ARROWS AND RAYS 1853

1092. 1853 With Arrows EF-40.
1093. 1853-O Arrows and Rays AU-50. Cleaned and wire brushed to a high brilliance than artificially toned. Whizzed. But overall a pleasing coin.

ARROWS, NO RAYS 1854-1855

1094. 1854 Arrows MS-65. Superb, full frosty mint luster. Just a hint of gold toning with a couple carbon streaks on the obverse. Exceedingly well struck with each star showing radial lines. Very clean, virtually pristine surfaces. The arrows at the date represent a short-lived two year type issue indicating to the public the reduced weight and thus intrinsic value of the coin from pre-1853 issues. Considered by dealers in earlier time to be common they were not esteemed or preserved so that today these top-notch pieces are quite elusive and worthy of the prices they command. (PHOTO)
1095. 1854-O With Arrows; 1855-O With Arrows EF-45. Both original. (TOTAL 2 PIECES)

NO MOTTO 1856-1866

1096. 1862-S AU-50. Lightly toned.
1097. 1864-S AU-60. Much luster.
1098. 1866 Proof-63. Deeply mirrored fields covered by light golden iridescent toning. A few scattered hairlines from gem. The initial year of issue for the "with motto" variety. (PHOTO)

ARROWS AT DATE 1873-1874

1099. 1873 Arrows EF-45 or better. Natural and original deep russet with shades of sea-green and blue-green toning. Rare four stripe variety. Rarity 6. (PHOTO)
1100. 1874-S With Arrows EF-40.

WITH MOTTO 1866-1891

1101. 1875-CC MS-65. A fully struck example of this tougher date. Lovely steel gray turning to light gold and greens about the edges. A pin point tick here and there does not distract from the overall beauty of this coin. (PHOTO)
1102. 1878 Proof-63. Rich golden toning over lightly hairlined surfaces. (PHOTO)
1103. 1882 MS-63 Prooflike. Dipped at one time. A no question business strike but with areas of Prooflike fields. A few scattered ticks and a hairline or two. Attractive and scarce with just 5,500 minted. (PHOTO)

BARBER/LIBERTY HEAD 1892-1915

1104. 1892 AU-55. Light golden hue on original luster.
1105. 1893 MS-63 Prooflike. Highly reflective, if not deeply mirrored fields. At first glance it appears to be an inferior Proof. Closer examination reveals no evidence of doubled strike, although the strike is unusually bold; and, minute die breaks from the last T in TRUST through stars 7, 8 and 9. Similarly numerous breaks are evident on the reverse. Perhaps Proof dies were used to strike circulation coins. This piece exhibits a few scattered contact marks that are made more visibly by the fields. Flashy and unusual to say the least. (PHOTO)
1106. 1894 Proof-63. Light hint of golden toning over deeply reflective surfaces. Some very fine obverse hairlines on the cheek and neck keep this one from being a gem. (PHOTO)
1107. 1895 MS-64/67. Virtually untuned satin surfaces which are pristine. Full frosty white mint luster. The obverse has only a couple microscopic fine contact marks. The reverse is superb. With the demand for choice Barber material, this coin is certain to generate serious interest in the bid/ask range. (PHOTO)
1108. 1895 MS-63. Sharply struck with a hint of gray toning.
1109. 1896-S EF-40. Lightly toned.
1110. 1902 EF-40. Steel gray.

LIBERTY WALKING 1916-1947

1113. 1916 MS-60. Sharp, original and pleasing. Golden obverse and deep purple and russet reverse.
1114. 1916-D MS-60. Nice luster. Traces of toning. Typically soft at the centers.
1115. 1916-S MS-63. Satiny white mint luster under light blue-rose tint. Clean fields. One mark on the eagle's right wing and a small rim mark on the reverse. (PHOTO)
1116. 1917 MS-65. Light blue, green, gold and russet colored surfaces. Not quite fully struck but still choice.
1117. 1917 MS-63. Fully struck with luster over mostly brilliant surfaces. Ideal for type set.
1118. 1917 MS-63. Two or three to many small contact marks for a 65 grade. Lustrous.
1119. 1917-D Obv AU-50. Brilliant.
1120. 1918 MS-67. Deep rich golden toning over lustrous surfaces. Full head, hand with full thumb. The eagle's breast and leg feathers are full and struck up. A sharp early walking half. (PHOTO)
1121. 1918-S MS-60. Satiny light golden luster. Excellent strike with a full thump. A bit soft on Ms. Liberty's head. A lovely "S" mint half. (PHOTO)
1122. 1920-D MS-60. A little softness of the strike is the only thing that keeps this from a higher grade. Brilliant with luster. (PHOTO)
1123. 1923-S MS-60. Good luster. Light scattered contact marks. Typically soft in the centers. A rare date in mint state. (PHOTO)
1124. 1928-S MS-60. Original. Somewhat softly struck head and hand but natural surfaces. Some golden and rose toning with hints of other colors on the reverse. (PHOTO)
1125. 1929-S AU-55. They call this a super slider.
1126. 1934 MS-65. Fully struck and frosty.
1127. 1934-D MS-65. Blazing frosty white luster. Typical strike with little head detail and softness at the top of the date. Pristine but for two reeding marks in the right obverse field near "T". Flashy. (PHOTO)

- 1527.** 1888 MS-64/65. Cameo Prooflike. Deep black mirrored fields. You could see "across the room". Very scarce. Most would call this a full 65 but the depth of these fields exaggerate the few contact marks so much we hesitate to use MS-65. This coin would break a record if it were full 65. - 1551.** 1892 MS-60 Brilliant with full breast feathers
- 1552.** 1892-CC MS-65 Gem Full strike with light golden toning. A few indiscernible facial ticks away from superb. A beautiful 92-CC that is surely worth close to sheet.
- 1553.** 1892-CC MS-63/65. Brilliant blazing cartwheel luster.
- 1554.** 1892-O MS-64/65. Brilliant. Slightly soft strike but superior for this date. Gold peripheral toning both obverse and reverse. Strong eagle feathers. Satiny surfaces. A virtual gem for the collector who can't afford (or find) the \$3000 92-O. (PHOTO)

Consignment Information

Consignments are accepted for auction at any time for future sales. Usually more than 50 consignors are represented in each sale. Commissions are charged on the total amount consignment realized.

Commission Rates: **2½ to 10% depending on total value of the consignment.** This commission covers all costs including catalog preparation, listing and description of the various lots, photography (of particularly important pieces), and other normal operations. There will be a 10% buyers charge on this sale.

On extreme rarities and large collections, fees are negotiable.

We would be pleased to discuss your potential consignment in confidence with you personally if you have any questions or concerns.

While in our hands, consignments material is insured for its full consigned value or at the Coin Dealers Newsletter Bid.

Material should be shipped to us by registered mail. An acknowledgement of receipt of your shipment will be sent along with a confirmed auction contract. Additionally, material can be hand delivered personally by the consignor to our offices, sent by courier or hand delivered to one of our convention agents.

Reserve Bids: If executed, our minimum fee is **10%** per lot of the Reserve bid. This applies only if the reserve bids are submitted with the consignment. The minimum reserve bid accepted \$250. per lot. If we feel a lot will not sell at or above a reserve, we will reject this lot and return it to the consignor at no charge. In the case of reserves not submitted with consignments, they are treated as bids and the full commission rate is charged to the consignor if the reserve is the winning bid.

We do reserve the right to recatalog, regrade and estimate lots according to our established standards.

We are mainly interested in consignments of auctionable material, both in terms of rarity and grade, since they realize the best return due to demand and popularity. We prefer listing lots with minimum values in excess of \$200 each without bulk lotting. Items of lesser value are normally grouped together. We are one of the few auction houses that will accept total collections for auctions. The minimum consignment value should be \$1000.

At least 2500 copies of each of our catalogs will be mailed to subscribers and active clients. Our total mailing list is now in excess of 5,000 names of actual auction bidders, individuals, firms and institutions who at one time or another request a catalog.

Settlement checks are issued 45 days after the sale on all lots with a completed sale.
